

SMART ARC: Robotized Arc Welding System

- High performance **“Plug & Weld”** robotized cells
- **Partnership** with the best suppliers (ex. Comau by Fronius)
- **Optimised management** of welding operations and cell efficiency
- **Application software** for complete system management

- Dedicated **TP4i user interface**.
- Complete range of **optional devices** such as push-pull torch, TCP control devices, joint finding and tracking sensors, wire cutter, etc.
- New **positioners range**
